PROFESSIONAL SUMMARY

Frontend Developer 3.5+ years of experience building responsive, high-performance web applications using React.js, TypeScript, JavaScript (ES6+), HTML5, and CSS3. Skilled in UI development, accessibility, cross-browser compatibility, and modern state management (Redux Toolkit, React Query). Experienced in REST API integration and basic Node.js/Express.js for improving frontend–backend communication. Strong in performance optimization, component reusability, and working in Agile/Scrum teams to deliver maintainable features on time.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) – Frontend Developer   July 2022 – Present

Sainsbury's Retail Web Application – Frontend Developer

- Built scalable, high-performance React + TypeScript applications. Improved state management using Redux Toolkit, React Query, and Axios, reducing redundant API calls and enhancing data flow.
- Developed accessible, responsive UI using Tailwind CSS, SASS, and Bootstrap for consistency across devices.
- Applied lazy loading, code-splitting, memoization, and virtualization, improving load performance by ~30%.
- Increased test coverage by 40% using Jest and React Testing Library, reducing post-release issues.
- Supported backend tasks with Node.js/Express, creating simple REST APIs and handling error responses.
- Modernized codebase by migrating legacy JS modules to reusable React components, improving maintainability.
- Collaborated with backend, QA, and design teams in Agile/Scrum sprints to deliver high-quality features on time.
